According to the client's declaration, the test report of the new submitted test samples is modified basing on the original report 60433991 001. The new models are the same as the original ones in circuit design, layout only difference in appearance. By testing the worst mode Radiated Emission & Radiated Spurious Emission lower than the original test value, so the mode EV-C-AC-7-C-2-C meets testing requirements.
Refer to TüV Rheinland report 60433991 001 for details of EMC, Radio and Health standards requirements.
Refer to test report CN2270AW001 for Article 3.1a electrical safety requirements.
